

## Refurbishment lip seal TOPWET TW SAN TES

### BASIC INFORMATION

|              |                                                                                                                                                                                                                                                                                                                                                                            |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| purpose      | seal against backwater for connecting to the original pipe                                                                                                                                                                                                                                                                                                                 |
| material     | EPDM                                                                                                                                                                                                                                                                                                                                                                       |
| colour       | black                                                                                                                                                                                                                                                                                                                                                                      |
| manufacturer | TOPWET s.r.o., náměstí Viléma Mrštíka 62, 664 81 Ostrovačice, Czech Republic                                                                                                                                                                                                                                                                                               |
| description  | <p>The special refurbishment lip seal is ideal for space displacement when connecting to original pipes. Together with its wide range of seal diameters, this feature ensures the ability to connect to pipes made of all materials, including those without necks.</p> <p>To select the correct seal, you only need to know the inner diameter of the original pipe..</p> |

### TECHNICAL PARAMETERS

#### Refurbishment lip seal
